

Department of Veterans Affairs

§ 17.156

§ 17.154 Dog-guides and equipment for blind.

(a) Blind ex-members of the Armed Forces entitled to disability compensation for a service-connected disability may be furnished a trained dog-guide. In addition, they may be furnished necessary travel expense to and from their places of residence to the point where adjustment to the dog-guide is available and meals and lodging during the period of adjustment, provided they are required to be away from their usual places of residence during the period of adjustment.

(b) Mechanical and/or electronic equipment considered necessary as aids to overcoming the handicap of blindness may also be supplied to beneficiaries defined in paragraph (a) of this section.

AUTOMOTIVE EQUIPMENT AND DRIVER
TRAINING

§ 17.155 Minimum standards of safety and quality for automotive adaptive equipment.

(a) The Under Secretary for Health or designee is authorized to develop and establish minimum standards of safety and quality for adaptive equipment provided under 38 U.S.C. chapter 39.

(b) In the performance of this function, the following considerations will apply:

(1) Minimum standards of safety and quality will be developed and promulgated for basic adaptive equipment specifically designed to facilitate operation and use of standard passenger motor vehicles by persons who have specified types of disablement and for the installation of such equipment.

(2) In those instances where custom-built adaptive equipment is designed and installed to meet the peculiar needs of uniquely disabled persons and where the incidence of probable usage is not such as to justify development of formal standards, such equipment will be inspected and, if in order, approved for use by a qualified designee of the Under Secretary for Health.

(3) Adaptive equipment, available to the general public, which is manufactured under standards of safety im-

posed by a Federal agency having authority to establish the same, shall be deemed to meet required standards for use as adaptive equipment. These include such items as automatic transmissions, power brakes, power steering and other automotive options.

(c) For those items where specific Department of Veterans Affairs standards of safety and quality have not as yet been developed, or where such standards are otherwise provided as with custom-designed or factory option items, authorization of suitable adaptive equipment will not be delayed. Approval of such adaptive equipment, however, shall be subject to the judgment of designated certifying officials that it meets implicit standards of safety and quality adopted by the industry or as later developed by the Department of Veterans Affairs.

[40 FR 8819, Mar. 3, 1975. Redesignated at 61 FR 21966, May 13, 1996, as amended at 62 FR 17072, Apr. 9, 1997]

§ 17.156 Eligibility for automobile adaptive equipment.

Automobile adaptive equipment may be authorized if the Under Secretary for Health or designee determines that such equipment is deemed necessary to insure that the eligible person will be able to operate the automobile or other conveyance in a manner consistent with such person's safety and so as to satisfy the applicable standards of licensure established by the State of such person's residency or other proper licensing authority.

(a) Persons eligible for adaptive equipment are:

(1) Veterans who are entitled to receive compensation for the loss or permanent loss of use of one or both feet; or the loss or permanent loss of use of one or both hands; or ankylosis of one or both knees, or one of both hips if the disability is the result of injury incurred or disease contracted in or aggravated by active military, naval or air service.

(2) Members of the Armed Forces serving on active duty who are suffering from any disability described in
